SUMMARY

Website Developer, graduate of Politeknik Statistika STIS (DIV Computational Statistics, 2025). Skilled in both backend and frontend web development using Laravel, Blade, and modern technologies to build secure and efficient systems. Experienced in database management, server operations, and familiar with SSH and SFTP. Proficient in data tools such as Microsoft Excel/Spreadsheet, Word, SPSS, Python, and RStudio. In addition, I also teach Mathematics and SKD, sharing knowledge and supporting students in their learning journey.
